# Dashboards Summarizing how UT Graduates Satisfy the 42-hour Core Curriculum

Data for all UT students followed by data for each College or School

The analyses include FTIC students only, no transfer students. The phrase “Credit by Exam” refers to credit earned by a score of 3 or more on AP exams. “Transfer Courses” are almost always from a community college or from high school dual credit or dual enrollment program. For the bar graphs on the right side of each category, light or burnt orange indicates credits earned at UT, gray indicates credit earned elsewhere. The vertical blue bar in each bar graph represents the total number of credit hours required for all graduating students to satisfy the requirement. Bar graphs that extend beyond the vertical blue line indicate excess hours taken by students over and above the core requirement (usually required as part of degree plans).

## UGS Program Review Fall 2019

### How did Spring 2019 Graduates Fulfill their Core Curriculum?

This report provides a snapshot of how the UT Spring 2019 graduating class fulfilled their core curriculum hours. Course data were pulled from the UT Registrar Package of Cognos for all undergraduate degrees issued to First-Time-In-College (FTIC) students in the Spring 2019 graduating class. This report did not attempt to make comparisons between or among core courses or colleges. Instead, data were gathered in an attempt to estimate the amount of core curriculum hours fulfilled by FTIC students at UT (in-residence) and outside UT (non-residence) by core subject area for individual colleges and across colleges as a whole.

	Definition	Notes
<b>FTIC student data</b>	in Texas High School, Out-of-State High School, or Summer Freshman Admission	Transfer students were excluded
<b>Total Hours Taken</b>	Total core hours passed (excluding Q, W, F, and in-residence CR)	
<b>Flag Hours</b>	Total core hours passed from courses that had flag association and were taken in-residence (excluding Q, W, F, in-residence CR)	Writing flag hours include core and non-core courses All students are required to take 3 hrs. of Writing flags as part of the core curriculum
<b>Writing Flag</b>	Total hours passed from courses that had writing flag association (excluding Q, W, F, in-residence CR)	Non-residence Writing flag hours represent RHE 309K
<b>2019 in-RES</b>	Total number and % of core hours taken at UT from Spring 2019 graduating class	Signature course hours may be duplicated if taken more than once.
<b>2019 non-RES</b>	Total core hours taken outside of UT from Spring 2019 graduating class	
<b>Credit by Exam (CBE)</b>	Total core hours earned through credit by exams, claimed at UT (e.g., AP credit)	Includes AP credit and credit-by-exam claimed at UT Austin
<b>University Extension (EXT)</b>	Total core hours earned from University Extension courses	
<b>University Extension Online (CSP)</b>	Total core hours earned from University Extension online courses	
<b>Transfer by Exam (TBE)</b>	Total core hours earned through credit by exams, claimed at other institutions and transferred to UT	TBE may also be represented in Transfer Course (TRN) data since not all institutions distinguish between these on their outgoing transcripts
<b>Transfer Course (TRN)</b>	Total core hours taken from courses at a transfer institution	
<b>Degrees Awarded</b>	Total number of undergraduate degrees issued to FTIC students in the Spring 2019 graduating class	Students may not have started in the college they graduated from Aggregated results double counts dual degree holders Student first semester enrolled varied (e.g., some students may have been enrolled before the adoption of the university-wide core curriculum (i.e. Early 2000s, late 1990s), which would put them under an undergraduate catalog that did not require the currently defined core)

# How does the average UT graduate complete the core curriculum?

This dashboard provides a snapshot of core hours taken from FTIC UT graduates in 2019.

**43%** of core hours completed by 2019 grads were non-residence hours

On average, **24** non-residence core hours were completed by **2015-2019 grads** (2019 results are comparable of previous years)

**FTIC Degrees Awarded**  
 2019: 5,416  
 2018: 5,182  
 2017: 5,008  
 2016: 5,168  
 2015: 4,511
