

Attachment 3

UGS Program Landscape Self-Assessment

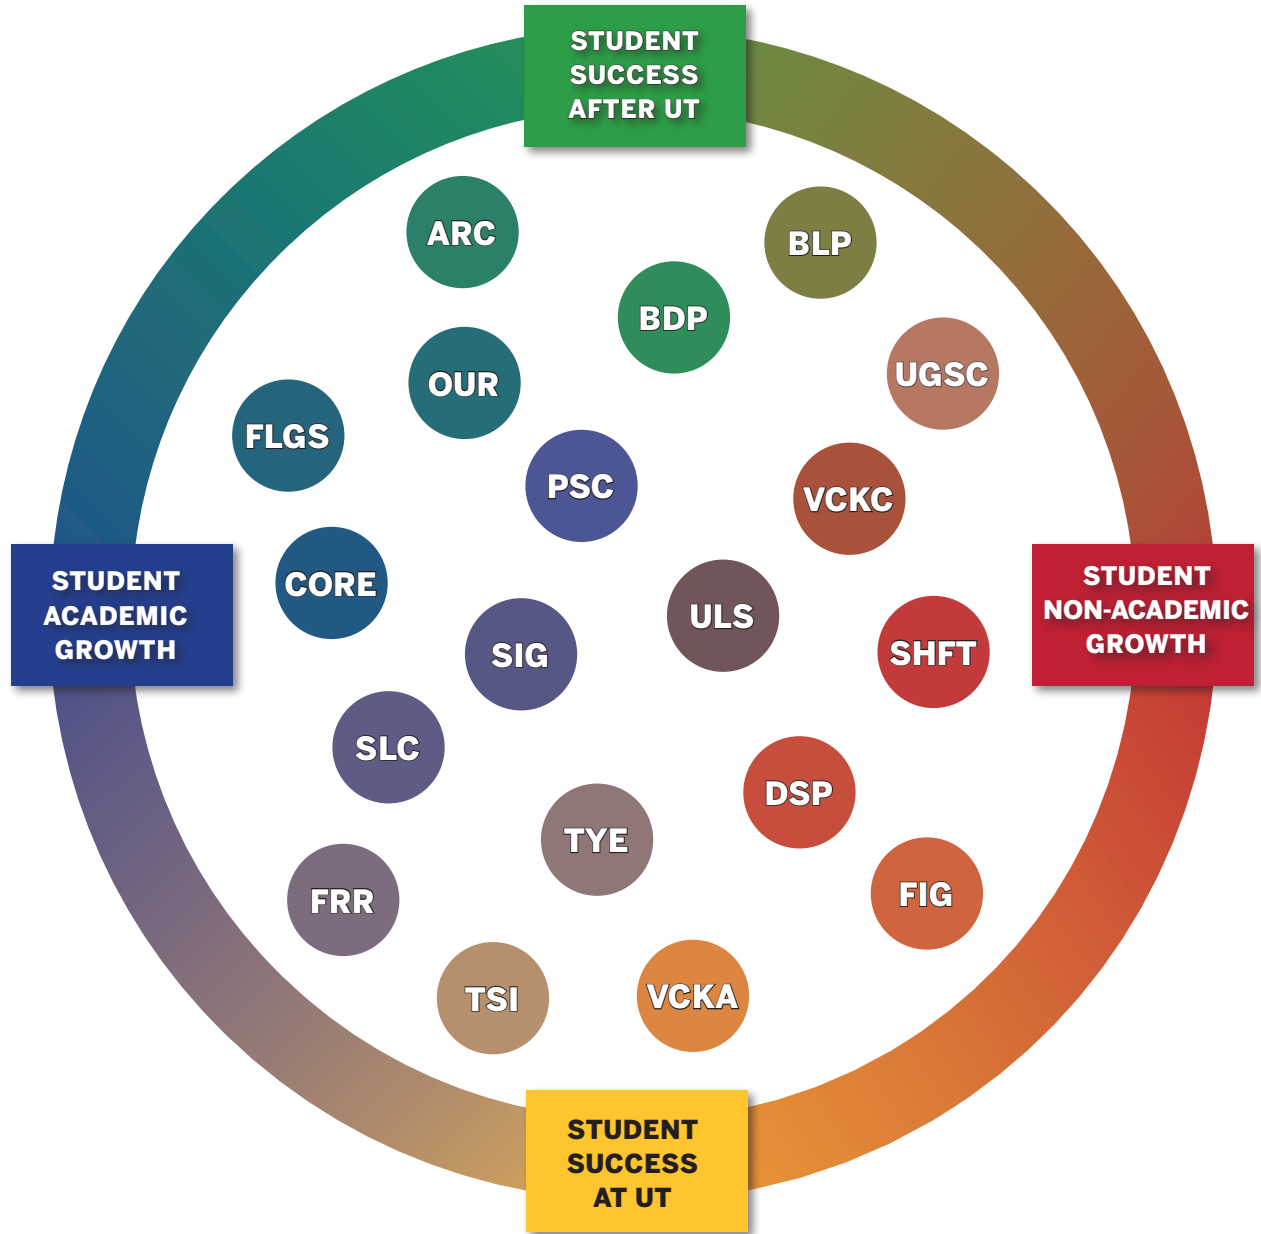

All UGS programs were placed on a two-dimensional landscape defined by the two axes of student growth and student success. In particular, student growth along the continuum of academic and personal growth as well as student success defined as a continuum of success at UT and success after UT. This exercise was extremely helpful for helping us understand how the various UGS programs and offices work together on behalf of all undergraduates at UT.

UGS Program Review Fall 2019

PROGRAMS LANDSCAPE
