

1

On Chrome or Firefox, visit your
ORGANIC CHEMISTRY II (51315) page on the
campus Canvas website

2

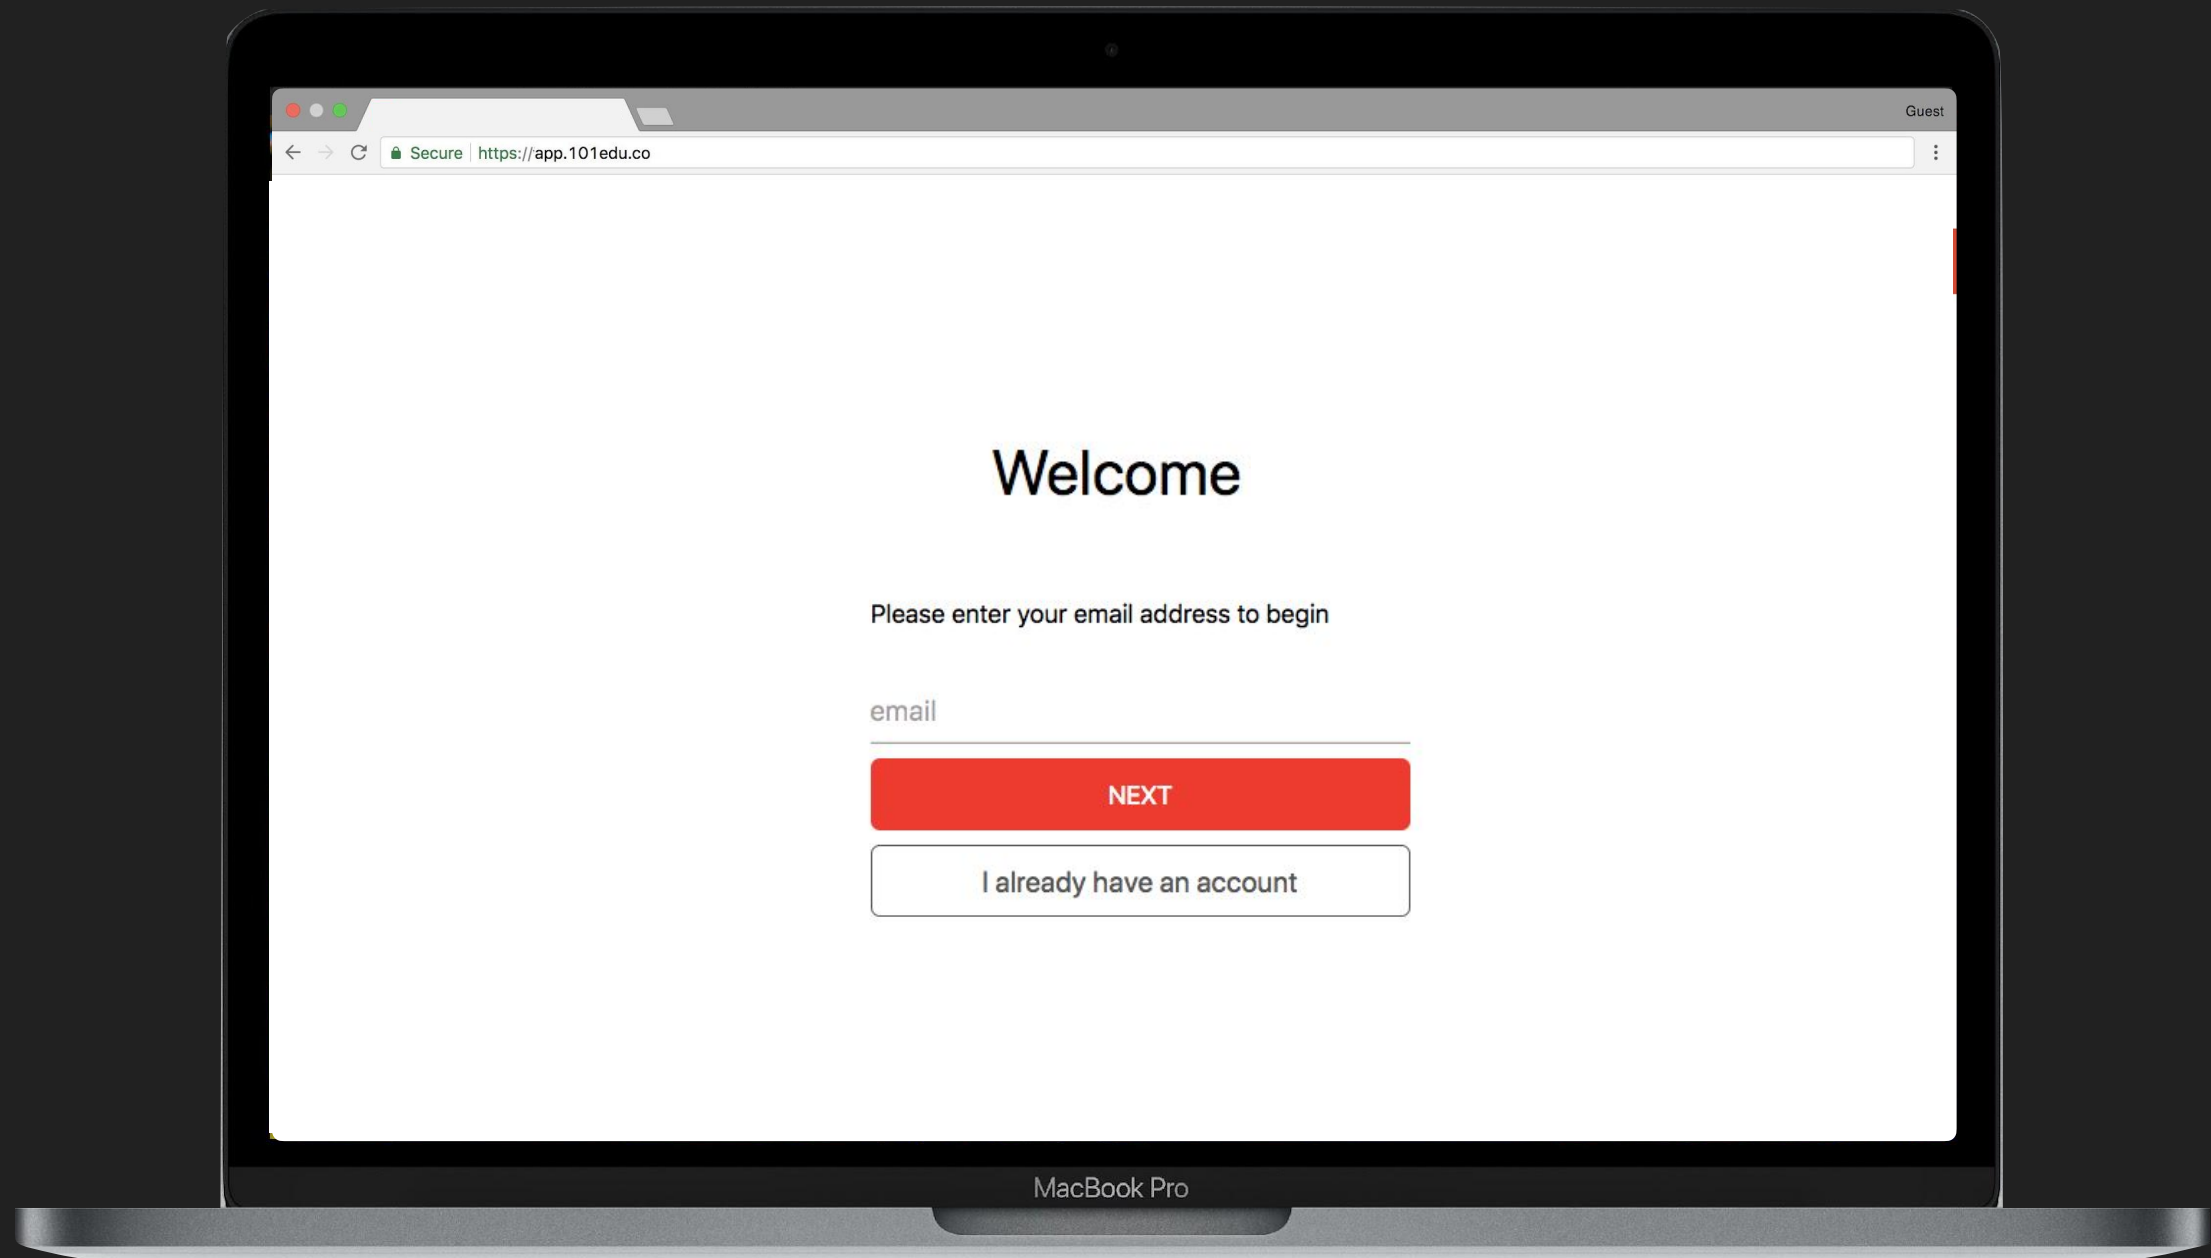

Click on the Aktiv Chemistry under the Aktiv Module of the course:

The screenshot displays the Canvas LMS interface. On the left sidebar, the 'Modules' link is highlighted with a red arrow. The main content area shows a list of modules under 'Spring 2023'. The 'Aktiv Learning' module is expanded, and 'Aktiv Chemistry' is highlighted with a red box. Below the module list, there is a large area with an upward arrow and the text 'Drop files here to add to module' and 'or choose files'.

Then click the link for Aktiv Chemistry to launch the platform in a new tab and register for the course

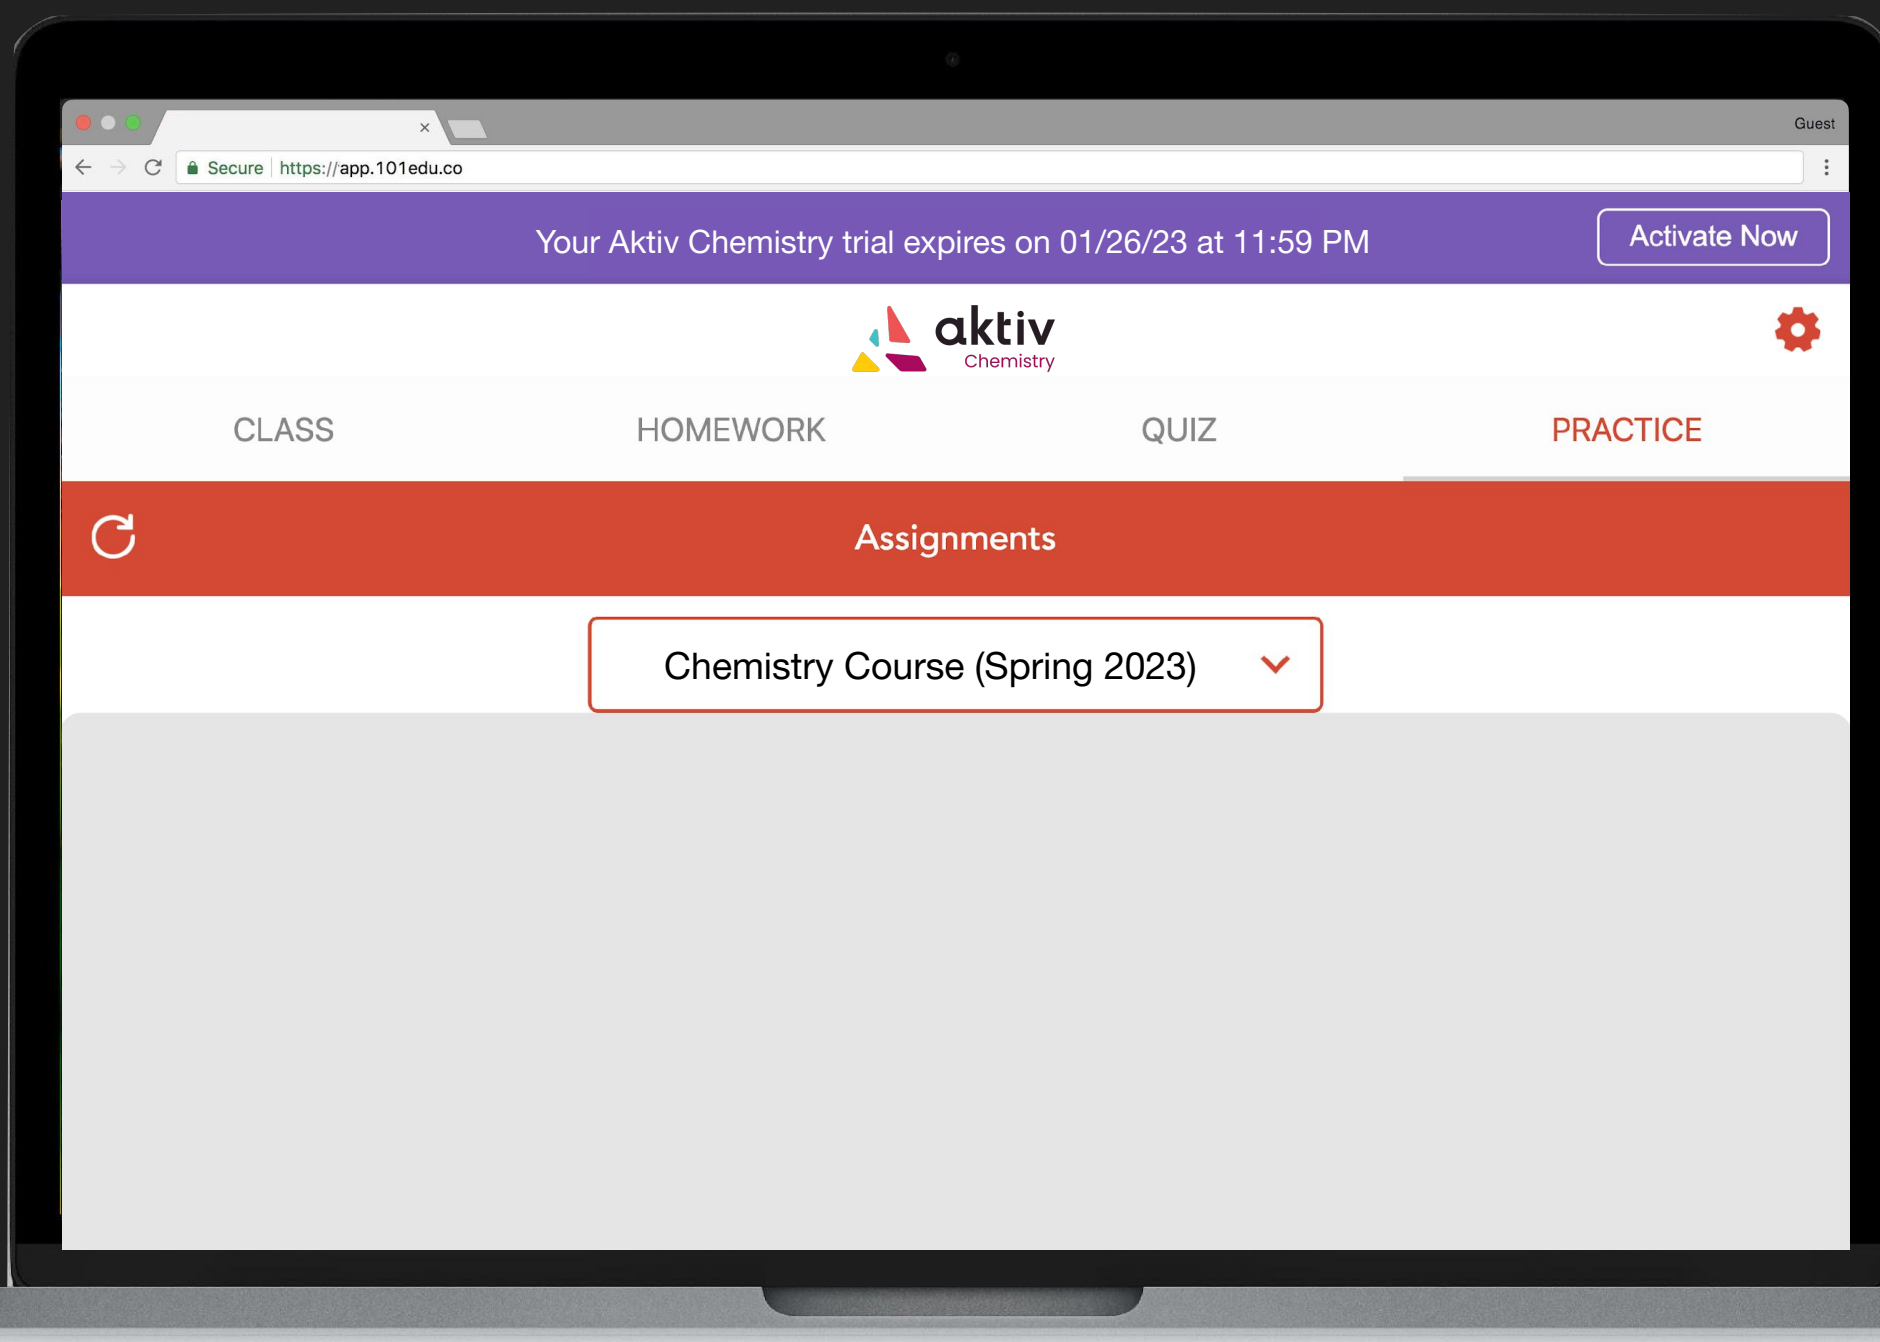

3

Create a student account by following the sign up instructions or login with an existing account

4

Each Aktiv Chemistry course has a payment grace period. When you are ready to activate your course, select **Activate Now**

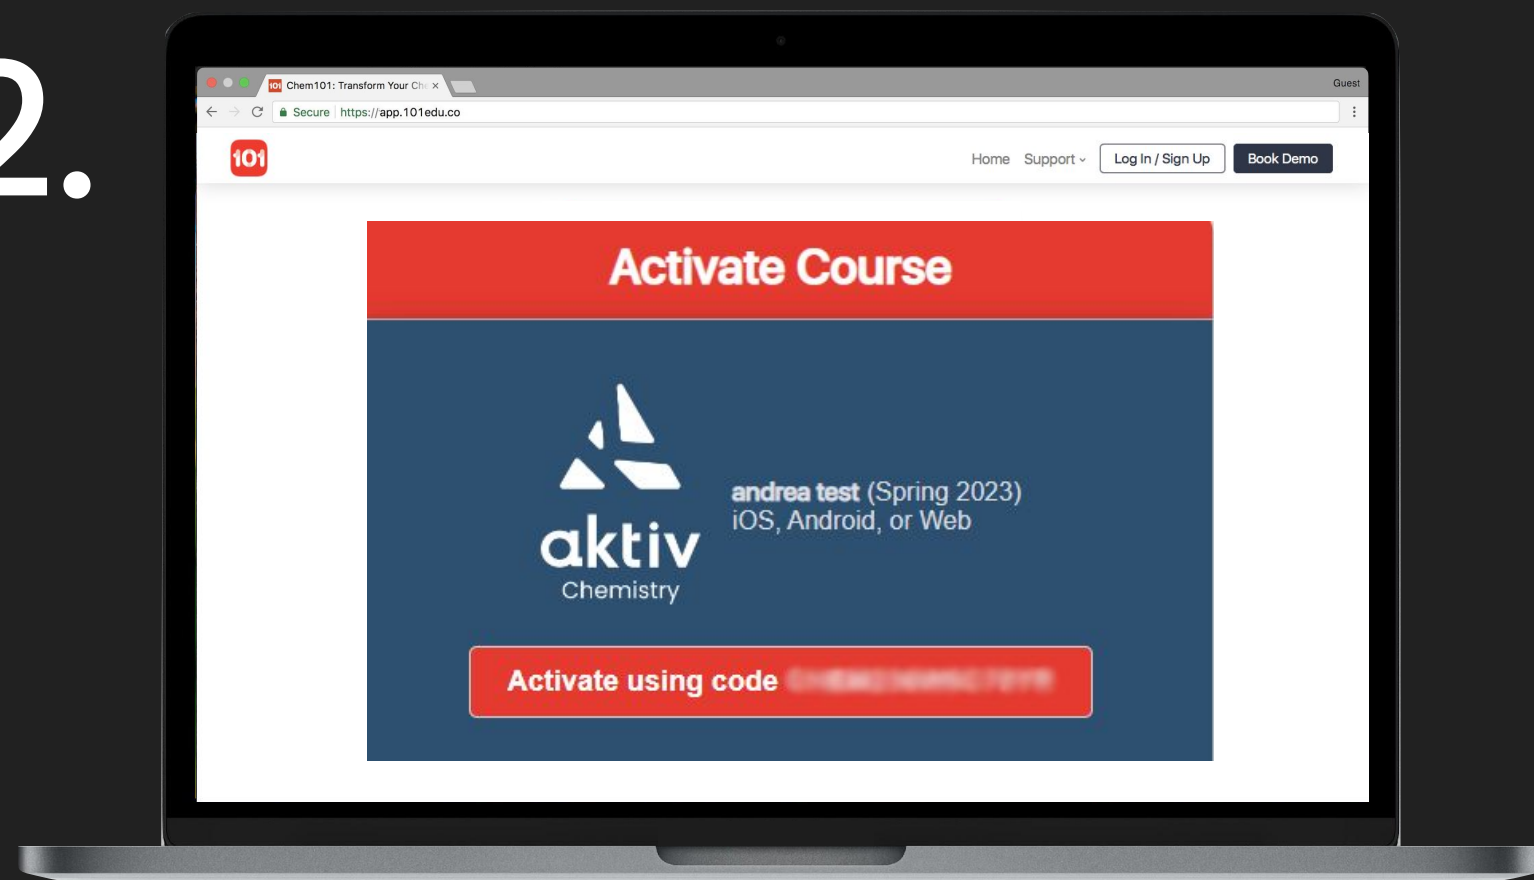

5

Select **Activate Course** in the account screen. Then click on **Activate using the code** that was purchased at your campus bookstore in the last semester to use the year long code:

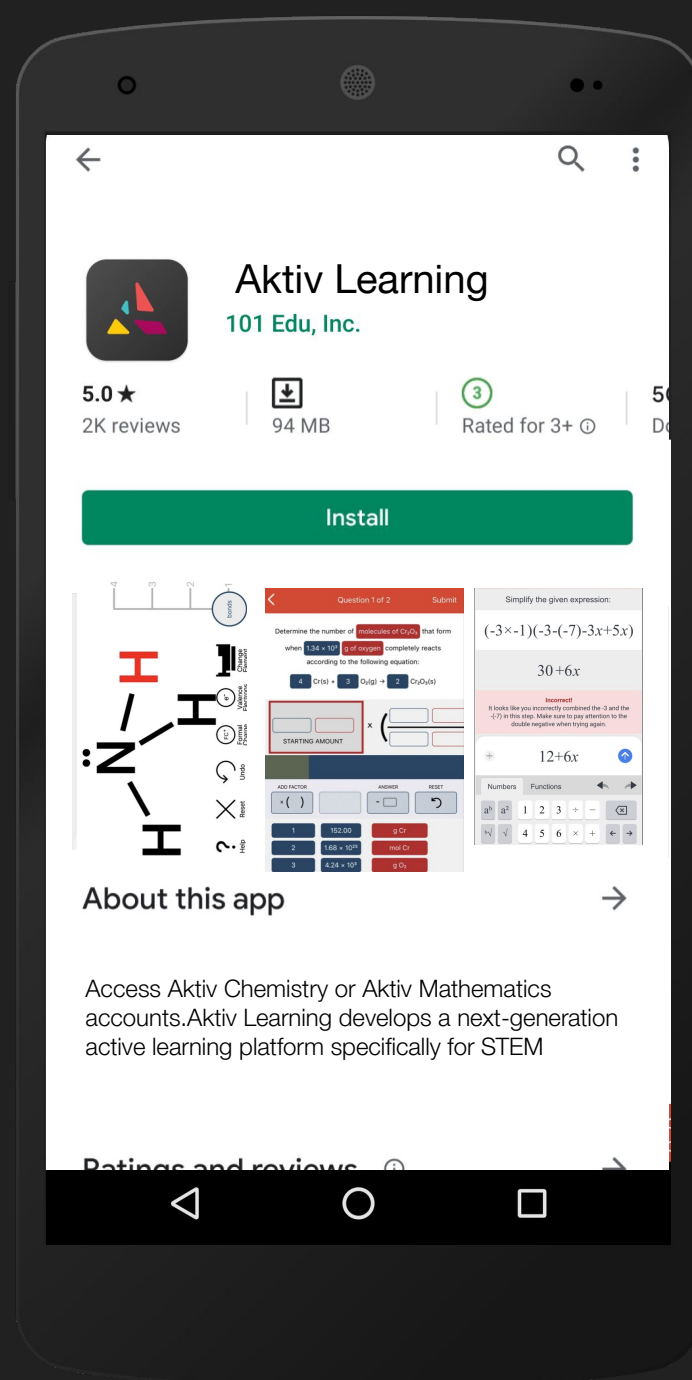

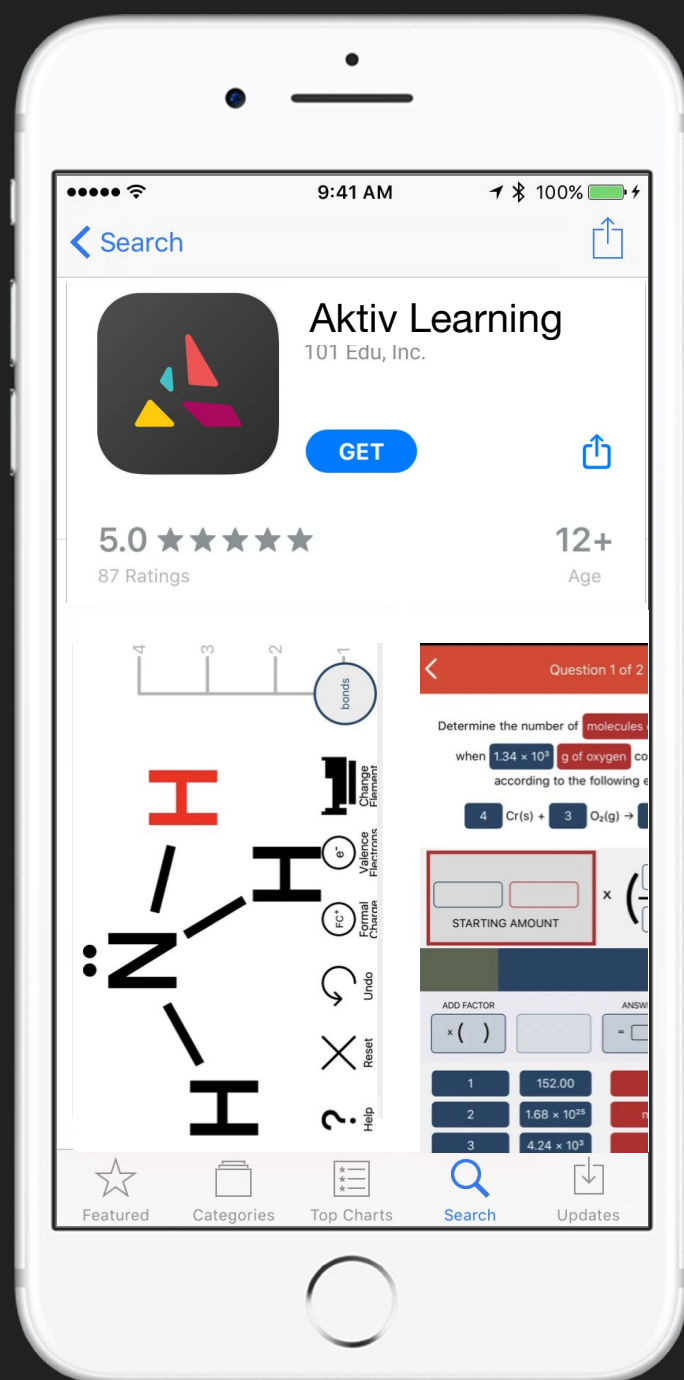

1.

2.

6

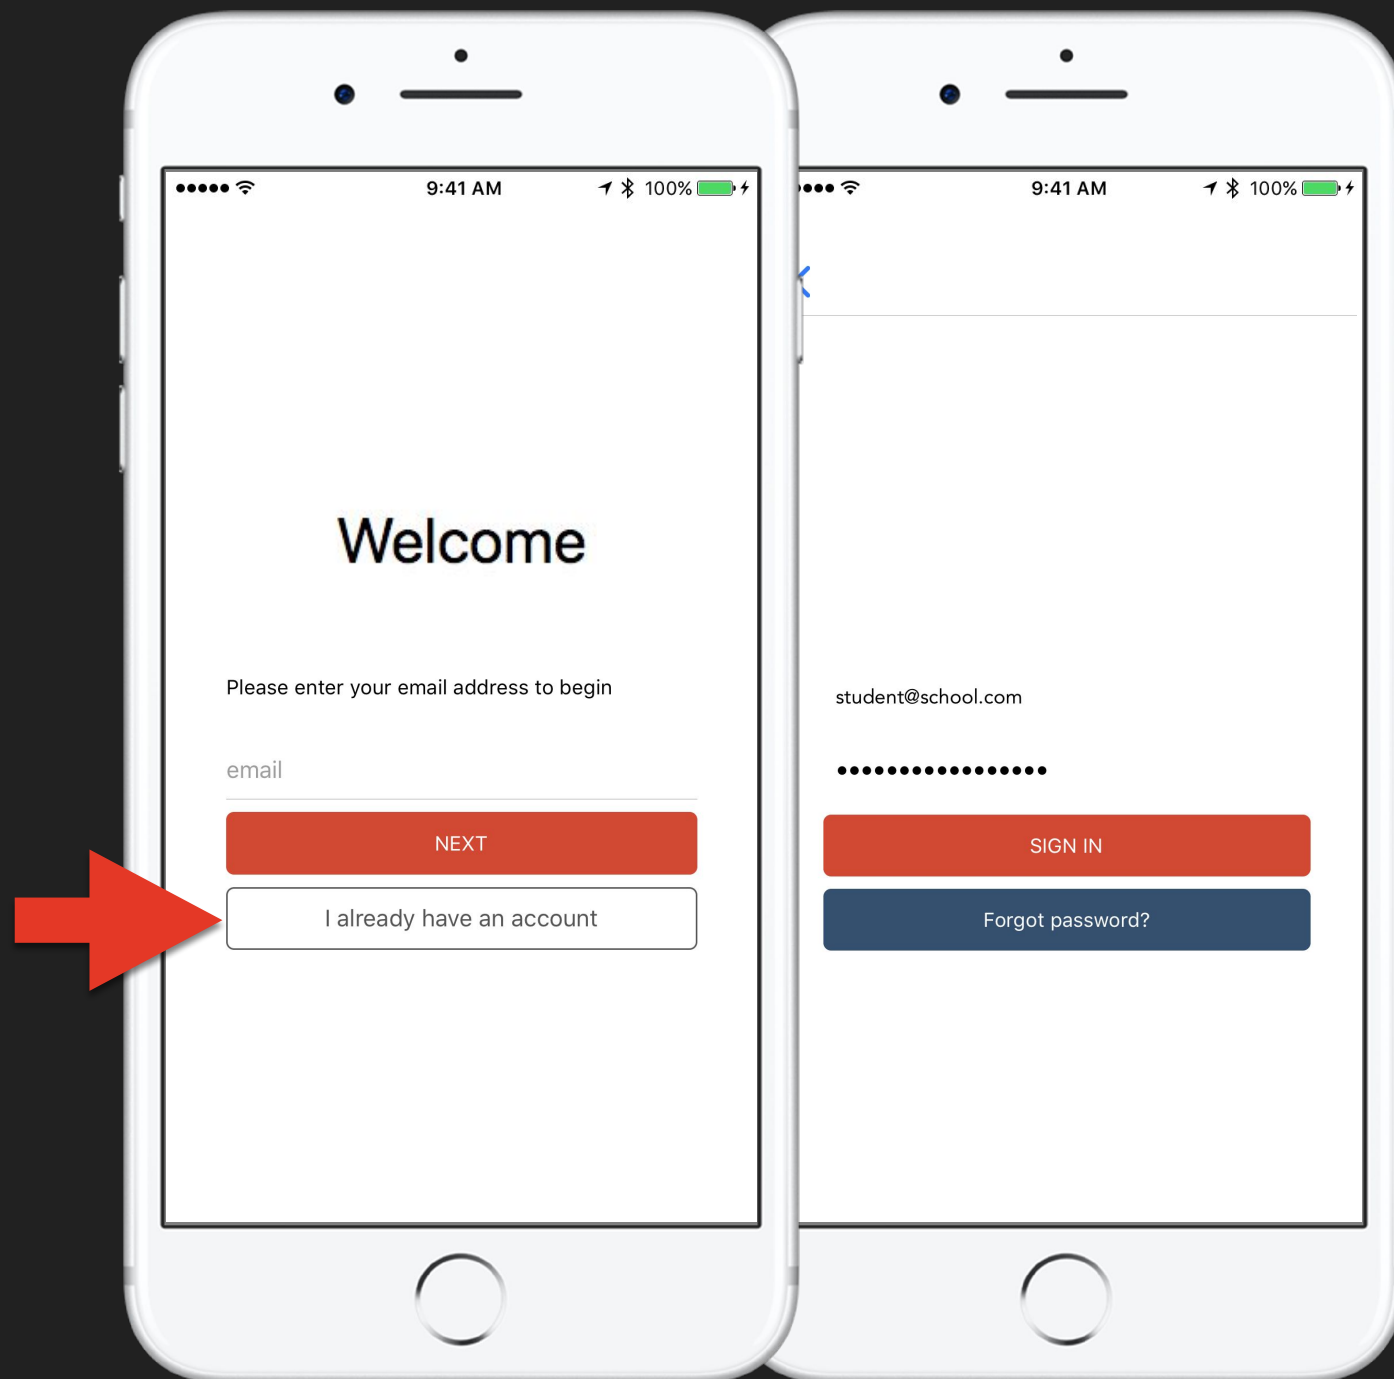

Download
Aktiv Learning
from the App Store
or Play Store on
your iPhone, iPad,
or Android device

Download on the
App Store

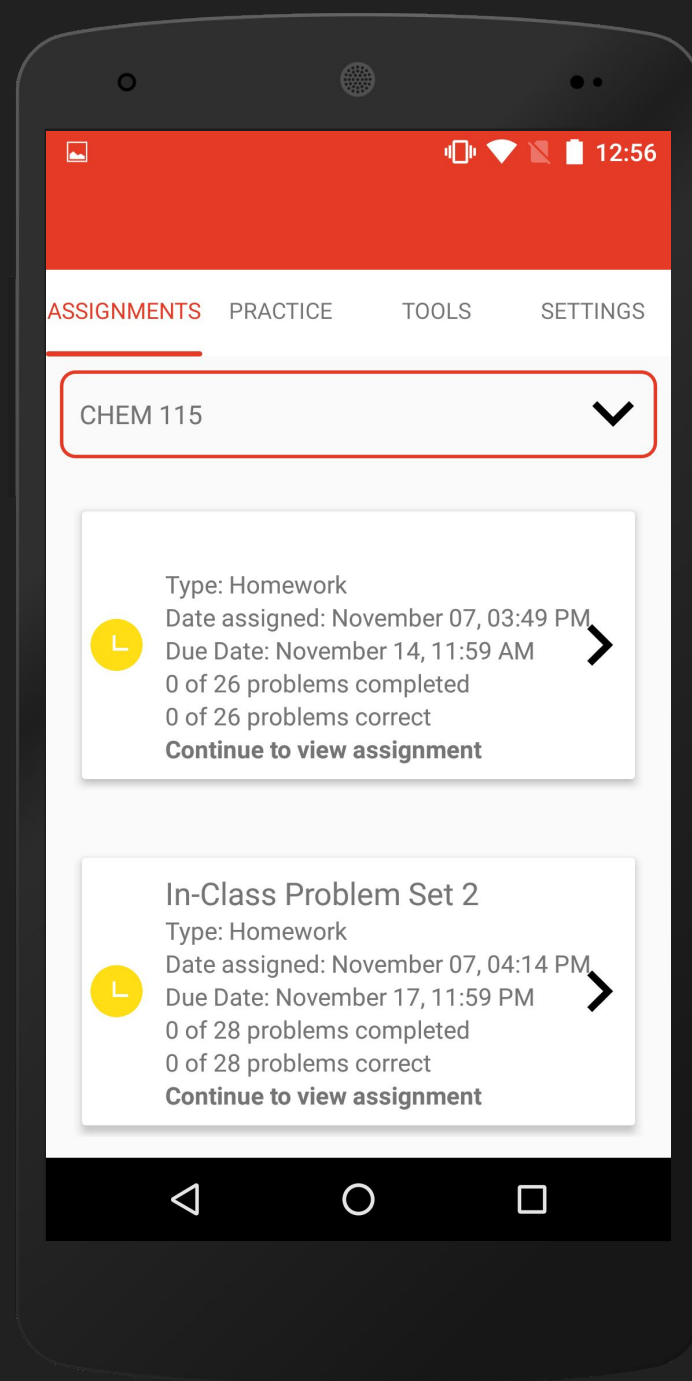

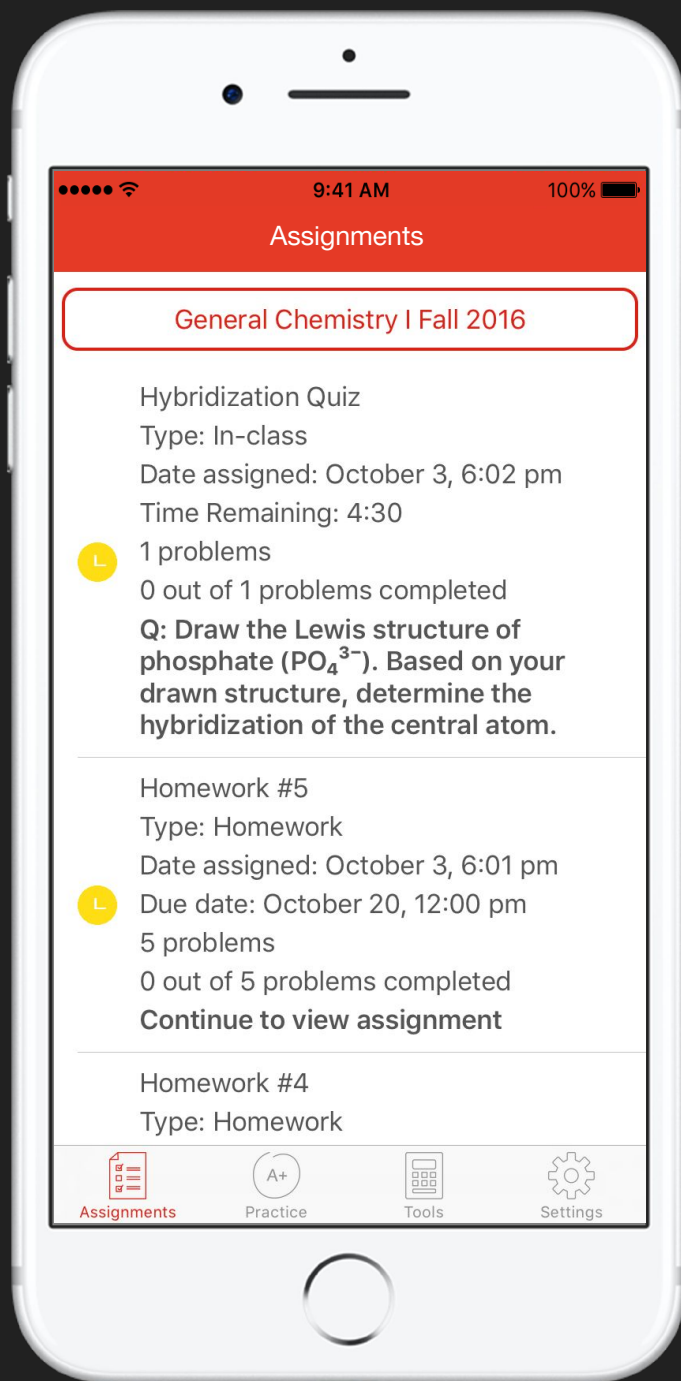

GET IT ON
Google Play

7

Login using your
Student account
credentials

8

Complete
activities
published by
your instructor

9

Congratulations,
you're now
enrolled in your
Aktiv Chemistry
course!
