

## "Organic Labville"

There must be a mistake,  
What did I just make  
Those aren't crystals, it looks more like oil.  
Looks like another screw up,  
Like the last one that blew up,  
Uh oh now its beginning to boil.

*Wasting my time again in my organic lab.  
Looking for that last product I lost.  
Some people say that my lab partners to blame,  
But I know, its my T.A. 's fault.*

Don't know the reason,  
I always get C's in  
My lab notebook it looks good to me.  
I copy it from Suzy,  
She's a real cutie,  
Why she doesn't like me I haven't a clue.

*Wasting my time again in my organic lab.  
Looking for that last product I lost.  
Some people say that my bad technique is to blame,  
But I know, its my T.A. 's fault.*

There's another fire in Welch,  
AFD just can't squelch.  
They said it wasn't safe so they sent us all home.  
But there's chemicals in my blender  
And I hope it will render,  
That crystalline product I need to be done.

*Wasting my time again in my organic lab.  
Looking for that last product I lost.  
Some people say that the professor is to blame,  
But I know, its my T.A. 's fault.  
Yes and Some people say that the professor is to blame,  
But I know, its my T.A. 's fault.*

## Ring of Pi

Benzene is a funny thing  
'Cause it is a special ring  
Hückel's rules, they do apply  
For a ring, a ring of pi

Electrons in a big old ring of pi  
They go round, round, round.  
And stability is high.  
As we learn, learn, learn,  
The ring of pi-i  
The ring of pi.

The structure, it is sweet  
When  $4N$  and then 2 meet  
 $Sp^2$ , and flat required  
Then the  $2p$ 's, they are wired

Electrons in a big old ring of pi  
They go round, round, round.  
And stability is high,  
As we learn, learn, learn,  
The ring of pi-i  
The ring of pi.

Electrons in a big old ring of pi  
They go round, round, round.  
And stability is high,  
As we learn, learn, learn,  
The ring of pi-i  
The ring of pi.

## **Oh Lord, Make Me A Doctor With A Mercedes-Benz**

**Oh Lord, make me a doctor with a Mercedes-Benz  
My friends are all prelaw, I must make amends.  
Worked hard in organic, never thought it would end.  
So Lord, make me a doctor, with a Mercedes-Benz.**

**Oh Lord, won't you give me an "A" on the test,  
I have to show med-schools that I am the best.  
Tried hard all semester, the TA says I'm a pest,  
So Lord, won't you give me an "A" on the test.**

**Oh Lord, won't you give me a high MCAT score.  
My friends all got 520's, I have to get more.  
I went to Kaplan, oh man what a bore,  
So Lord, won't you give me a high MCAT score.**

**Oh Lord, won't you get me into Johns Hopkins U.  
Baylor would be nice, I'd like an interview  
O.K. let's be serious, A&M will do.  
So Lord, won't you get me into TAMU.**

**Oh Lord, make me a doctor with a Mercedes-Benz  
My friends are all prelaw, I must make amends.  
Worked hard in organic, never thought it would end.  
So Lord, make me a doctor, with a Mercedes-Benz.**

## “Make it B”

On the final when I'm having trouble  
Inspiration comes to me  
I'm hearing words of wisdom  
Make it B  
And in my hour of darkness,  
The answer is standing right in front of me,  
Speaking words of wisdom  
Make it B

Make it B, Make it B, Make it B, Make it B  
Here are words of wisdom  
Make it B

A tetrahedral intermediate  
And a leaving group you see  
This will be the answer, Make it B  
No time to be that downhearted,  
There is still a chance that you will see  
With a leaving group, Make it B

Make it B, Make it B, Make it B, Make it B  
This will be the answer,  
Make it B

Make it B, Make it B, Make it B, Make it B  
With a leaving group,  
Make it B

Make it B, Make it B, Make it B, Make it B  
Mechanism B,

Make it B

And when my mind is cloudy  
There is still a light that shines on me,  
Shinin until tomorrow, make it B  
The Claisen is a great reaction  
Chemists of the world agree  
For Claisen its the answer  
Make it B

Make it B, Make it B, Make it B, Make it B  
With a leaving group,  
Make it B

Make it B, Make it B, Make it B, Make it B  
Mechanism B,  
Make it B

## We All Love Organic Chemistry

In the town where I was born,  
Lived a man of chemistry.  
And he told us of his life  
In the organic laboratory.

Making molecules to fight disease  
Coming up with their syntheses.  
So we sit in 320N  
Learning organic chemistry.

*Refrain:*

*We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"  
We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"*

All our friends think we're a bore  
Our grade point averages begin with 4.  
But we await graduation day  
To work in lab for meager pay.

But its OK, who else can say  
They're curing cancer or fighting AIDS.  
We hope that you in 320N  
Respect organic chemistry

*Refrain:*

*We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"  
We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"*
