

## **Oh Lord, Make Me A Doctor With A Mercedes-Benz**

**Oh Lord, make me a doctor with a Mercedes-Benz  
My friends are all prelaw, I must make amends.  
Worked hard in organic, never thought it would end.  
So Lord, make me a doctor, with a Mercedes-Benz.**

**Oh Lord, won't you give me an "A" on the test,  
I have to show med-schools that I am the best.  
Tried hard all semester, the TA says I'm a pest,  
So Lord, won't you give me an "A" on the test.**

**Oh Lord, won't you give me a high MCAT score.  
My friends all got 520's, I have to get more.  
I went to Kaplan, oh man what a bore,  
So Lord, won't you give me a high MCAT score.**

**Oh Lord, won't you get me into Johns Hopkins U.  
Baylor would be nice, I'd like an interview  
O.K. let's be serious, A&M will do.  
So Lord, won't you get me into TAMU.**

**Oh Lord, make me a doctor with a Mercedes-Benz  
My friends are all prelaw, I must make amends.  
Worked hard in organic, never thought it would end.  
So Lord, make me a doctor, with a Mercedes-Benz.**

## Ring of Pi

Benzene is a funny thing  
'Cause it is a special ring  
Hückel's rules, they do apply  
For a ring, a ring of pi

Electrons in a big old ring of pi  
They go round, round, round.  
And stability is high.  
As we learn, learn, learn,  
The ring of pi-i  
The ring of pi.

The structure, it is sweet  
When  $4N$  and then 2 meet  
 $Sp^2$ , and flat required  
Then the  $2p$ 's, they are wired

Electrons in a big old ring of pi  
They go round, round, round.  
And stability is high,  
As we learn, learn, learn,  
The ring of pi-i  
The ring of pi.

Electrons in a big old ring of pi  
They go round, round, round.  
And stability is high,  
As we learn, learn, learn,

The ring of  $\pi$ -i  
The ring of  $\pi$ .

# **STAIRWAY TO WELDING SCHOOL**

**There's a premed who's sure  
That counterclockwise is "R"  
And his grades will make him perfect  
For welding school**

**When he gets there he'll say  
What was that rule of the day  
Maybe I should have made a better  
Road map**

**Ooooooooo He never wanted to study  
Ooooooooo He thinks chemistry is cruddy**

**And his grades will make him perfect  
For welding school**

**And as we waste our time away  
In organic lab all day  
How come my products look like clay  
We should have been nicer to the T.A.**

**And our grades will make us perfect  
For welding school**

## **“Make it B”**

On the final  
When I'm having trouble  
Inspiration comes to me  
Speaking words of wisdom  
Make it B

A tetrahedral intermediate  
And a leaving group you see  
Here are words of wisdom  
Make it B,

Make it B, Make it B, Make it B, Make it B  
Mechanism B  
Make it B

The Claisen is a great reaction  
Chemists of the world agree  
For Claisen its the answer  
Make it B

And when my mind is cloudy  
There is still a light that shines on me  
With a leaving group,  
Make it B

Make it B, Make it B, Make it B, Make it B  
With a leaving group  
Make it B

## Organic Paranoia

In a dark, dingy dorm room,  
Chemistry notes everywhere,  
Warm smell of a red bull,  
Rising up through the air,  
Been studying for three days now,  
Beneath a shimmering light,  
My head grows heavy and my sight grows dim,  
I want to stop for the night.  
Could it be 4 AM now?  
I hear the tower bells,  
And I was thinking to myself  
That carbonyl chemistry's hell.  
I worked on aromatics,  
Then the "rules of the day,"  
I heard voices down the corridor,  
Thought I heard them say:

*Welcome to organic paranoia,  
Such a scary place,  
You see it on my face,  
Plenty of room for more organic paranoia,  
This time of year,  
You can find it here!*

Roadmaps in my memory  
Hey this final isn't so bad  
No reason to panic  
Or even be sad.  
Relax says the proctor,  
You finished this with ease,  
You can turn it in any time you like,  
Then you are free to leave,  
Last thing I remember,  
I was running for the door,  
I was glad it is over  
Won't need to study any more.  
And then new voices came calling from far away,  
A lot better than the middle of the night,  
I heard them say:

*Welcome to organic chem. euphoria  
It has all become clear,  
I am outta here!  
I'm living it up because of organic chem. euphoria  
What a nice surprise  
I won't need alibis.*

## "Organic Labville"

There must be a mistake,  
What did I just make  
Those aren't crystals, it looks more like oil.  
Looks like another screw up,  
Like the last one that blew up,  
Uh oh now its beginning to boil.

*Wasting my time again in my organic lab.  
Looking for that last product I lost.  
Some people say that my lab partners to blame,  
But I know, its my T.A.'s fault.*

Don't know the reason,  
I always get C's in  
My lab notebook it looks good to me.  
I copy it from Suzy,  
She's a real cutie,  
Why she doesn't like me I haven't a clue.

*Wasting my time again in my organic lab.  
Looking for that last product I lost.  
Some people say that my bad technique is to blame,  
But I know, its my T.A.'s fault.*

There's another fire in Welch,  
AFD just can't squelch.  
They said it wasn't safe so they sent us all home.  
But there's chemicals in my blender  
And I hope it will render,  
That crystalline product I need to be done.

*Wasting my time again in my organic lab.  
Looking for that last product I lost.  
Some people say that the professor is to blame,  
But I know, its my T.A.'s fault.  
Yes and Some people say that the professor is to blame,  
But I know, its my T.A.'s fault.*

# Free as Br

If I broke my bond to you carbon  
Would you still remember me  
For I'm a good leaving group now  
And there's too many atoms other than "C"  
If I stayed bonded to you carbon  
We just wouldn't be livin' large,  
'cause I'm as free as Br now  
And Br must have a charge, oh, oh, oh, oh  
And Br must have a charge  
And Br must have a charge  
Lord knows I need a charge  
Bye, bye carbon its been a sweet bond  
Though my valence is about to change  
So please don't try to rearrange now  
'Cause lord knows I'm to blame  
If I stayed bonded to you carbon  
We just wouldn't be livin' large,  
'cause I'm as free as Br now  
And Br must have a charge, oh, oh, oh, oh  
And Br must have a charge  
And Br must have a charge  
Lord knows I need a charge  
Lord help me get a charge  
Lord, I need a charge  
Won't you fly high Br yeah.

## We All Love Organic Chemistry

In the town where I was born,  
Lived a man of chemistry.  
And he told us of his life  
In the organic laboratory.

Making molecules to fight disease  
Coming up with their syntheses.  
So we sit in 320N  
Learning organic chemistry.

*Refrain:*

*We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"  
We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"*

All our friends think we're a bore  
Our grade point averages begin with 4.  
But we await graduation day  
To work in lab for meager pay.

But its OK, who else can say  
They're curing cancer or fighting AIDS.  
We hope that you in 320N  
Respect organic chemistry

*Refrain:*

*We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"  
We all love organic chemistry  
Synthetic chemistry  
Molecules with "C"*
